Map Revision Date: 11/19/13 - © 2013 City of Boulder, CO Subject to Revision

NOTE: The preliminary urban flood extent data was developed using field surveys completed by City of Boulder staff and consultants, Digital Globe worldview-2 satellite imagery (9/13/2013), and public input from the Boulder Crowd Sourcing online map as well as discussions with affected property owners. Only drainages with a FEMA mapped floodplain were surveyed. Areas of Open Space and Mountain Parks land without a regulatory floodplain were not included. The flood extent data is current as of 10/16/13 and does not reflect information received from recent community meetings. The City of Boulder will make additional updates to this data to incorporate relevant information.

The preliminary urban flood extent data does not supersede the Special Flood Hazard Area Designation (SFHA), or 100 year floodplain, used by FEMA for Digital Flood Insurance Rate Maps or the proposed floodplain delineations from ongoing flood studies.

The information depicted on this map is provided as graphical representation only. The City of Boulder provides no warranty, expressed or implied, as to the accuracy and/or completeness of the information contained hereon.
